Purpose of video II is to show how to create :

- 4. Table
- 5. Card
- 6. Slicer
- 7. Clustered column chart (trend line)
- 8. Switch the design from one chart to another one

Purpose of video III is to show how to create :

- 9. Area Chart
- 10. Bar Chart
- 11. Map
- 12. Using filter in slicer

Page 1 Page 2 Page 3 Page 4 Page 5

This screenshot shows the Microsoft Power BI Desktop interface. The main area displays a line chart with a light gray background. A tooltip is visible at the bottom of the chart area. To the left of the chart, there is a placeholder message: "Select or drag fields to populate this visual". On the right side, there are three large panes: "Filters", "Visualizations", and "Fields". The "Filters" pane contains sections for "Filters on this visual", "Filters on this page", and "Filters on all pages", each with an "Add data fields here" button. The "Visualizations" pane shows icons for different chart types. The "Fields" pane lists data fields categorized by source: "d555555 orders" (comments, customerName, orderDate, orderNumber, requiredDate, shippedDate, status), "d555555 products" (buyPrice, MSRP, productCode, productDescription, productLine, productName, productScale, productVendor, Profit, quantityInStock, Total_expense), and "payments in CSV" (checkNumber, customerName, paymentDate, Date_Hierarchy, Year). At the bottom, a navigation bar shows "Page 5 of 5" and a set of standard Windows-style icons.

Page 5 of 5

14:12 22/12/2020

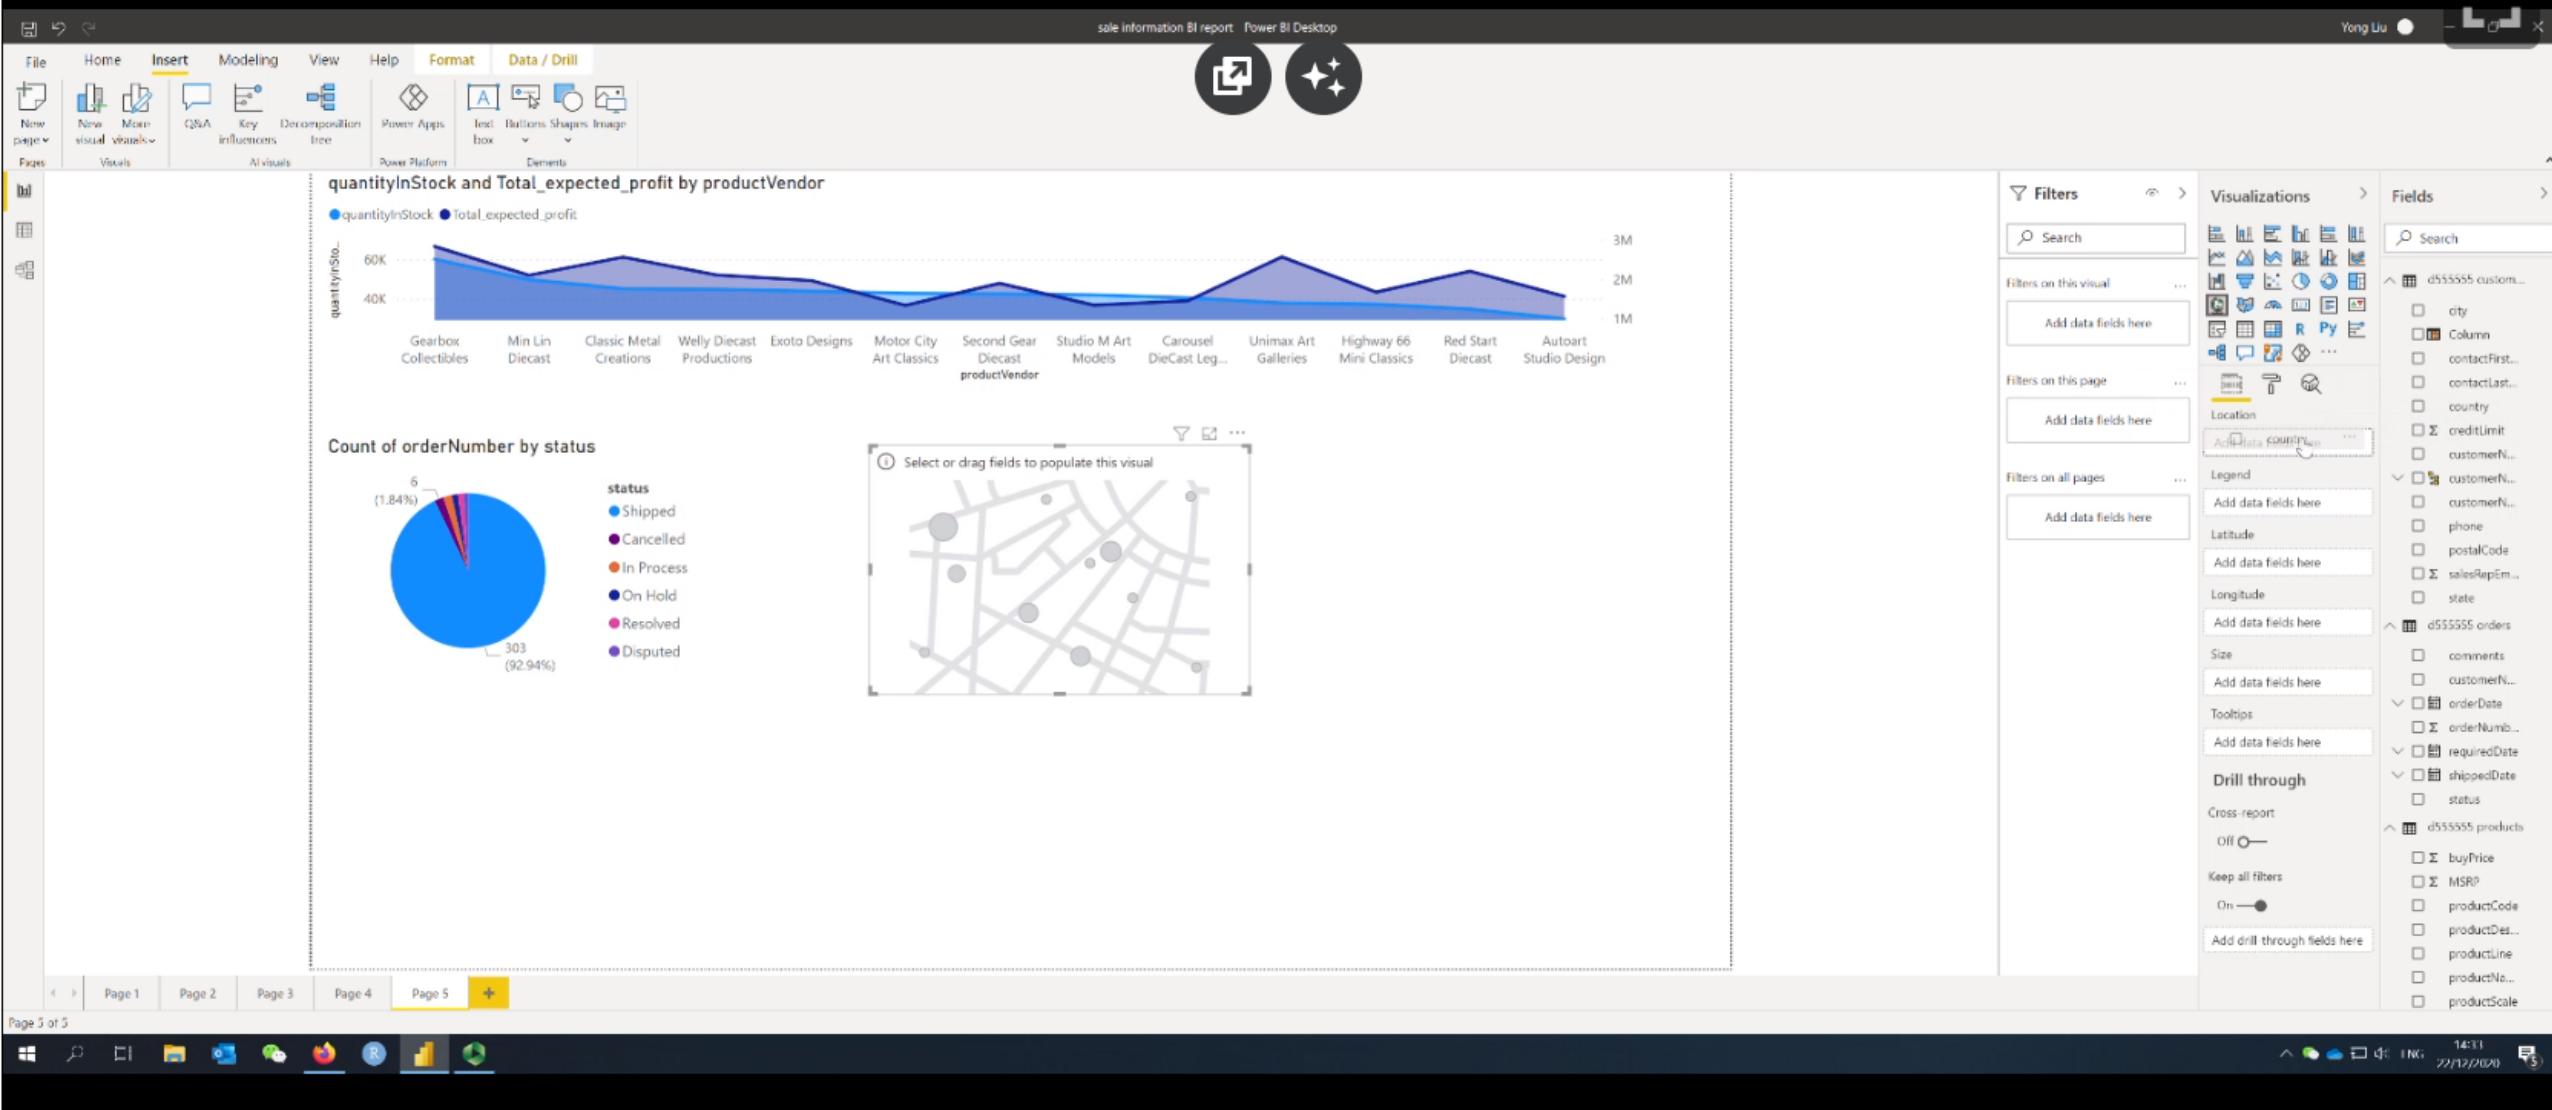

This screenshot shows a Microsoft Power BI dashboard interface. The top navigation bar includes File, Home, Insert, Modeling, View, Help, Format, and Data / Drill. The Insert tab is selected. Below the navigation bar are various icons for creating new pages, visualizations, Q&A, Key Influencers, Decomposition Tree, Power Apps, Text Box, Buttons, Shapes, and Images.

The main content area displays three visualizations:

- A line chart titled "quantityInStock and Total_expected_profit by productVendor". The Y-axis represents quantityInStock (0 to 60K) and Total_expected_profit (1M to 3M). The X-axis lists product vendors: Gearbox Collectibles, Min Lin Diecast, Classic Metal Creations, Welly Diecast Productions, Exoto Designs, Motor City Art Classics, Second Gear Diecast Models, Studio M Art Galleries, Carousel DieCast Leg..., Unimax Art Galleries, Highway 66 Mini Classics, Red Start Diecast, and Autoart Studio Design.
- A pie chart titled "Count of orderNumber by status". The legend indicates the following counts:
 - Shipped: 303 (92.94%)
 - Cancelled: 6 (1.84%)
 - In Process: 0 (0%)
 - On Hold: 0 (0%)
 - Resolved: 0 (0%)
 - Disputed: 0 (0%)
- A map visualization showing several locations marked with dots on a grid, with a callout box stating "Select or drag fields to populate this visual".

On the right side, there is a sidebar with sections for Filters, Visualizations, and Fields. The Filters section contains a search bar and dropdown menus for "Filters on this visual", "Filters on this page", and "Filters on all pages". The Visualizations section shows a grid of visualization icons. The Fields section lists numerous data fields categorized under "d555555 custom...", "d555555 orders", and "d555555 products".

At the bottom, there are navigation buttons for Page 1, Page 2, Page 3, Page 4, Page 5, and a plus sign for adding new pages. The status bar at the bottom right shows "14:11" and "14/12/2020".
